Publishing Office

Pergamon Press Ltd, Pergamon House, Bampfylde Street, Exeter EX1 2AH, England (*Tel.* Exeter (0392) 51558; *Fax* (0392) 425370). *Production Editor:* Linda Smith.

Subscription and Advertising Offices

North America—Pergamon Press Inc., 660 White Plains Road, Tarrytown, NY 10591-5153, U.S.A. *Rest of the World*—Pergamon Press Ltd, Headington Hill Hall, Oxford OX3 0BW, England (*Tel.* Oxford (0865) 794141)

Subscription Rates

Annual Institutional Subscription Rates 1994: North, Central and South America, US$1200; Rest of World, £779. Associated Personal Subscription Rates are available on request for those whose institutions are library subscribers. Sterling prices exclude VAT. Non-VAT registered customers in the European Community will be charged the appropriate VAT in addition to the price listed. Prices include postage and insurance and are subject to change without notice.

Back Issues

Back issues of all previously published volumes, in both hard copy and on microform are available direct from Pergamon Press offices.

Published monthly. Copyright © 1993 Pergamon Press Ltd

Second class postage paid at RAHWAY NJ. Postmaster send address corrections to *Neuropharmacology*, Pergamon Press Inc., 660 White Plains Road, Tarrytown, NY 10591-5153, U.S.A.

Cover—In the foreground, a molecular model of Conotoxin MVIIA from Quanta 3.2 by Dr Trevor Howe (Eli Lilly), coloured on individual atomic charge using CHARMm 22. In the background from Dr A. Fox's laboratory (University of Chicago) are single channel calcium currents from an adrenal medullary cell in control conditions on the left, and in the presence of BayK8644 on the right.

CONTENTS OF VOLUME 32

NUMBER 1

A brief history of the journal iii

Editorial v

Zuner A. Bortolotto and Graham L. Collingridge — Characterisation of LTP induced by the activation of glutamate metabotropic receptors in area CA1 of the hippocampus 1

Andrew M. Batchelor and John Garthwaite — Novel synaptic potentials in cerebellar Purkinje cells: probable mediation by metabotropic glutamate receptors 11

Krystyna Kolasa and R. S. Jope — Synergistic activation of phosphoinositide hydrolysis induced in brain slices by norepinephrine and the excitatory amino acid agonist, *trans*-ACPD 21

Philippe Marin, Jean-François Quignard, Mireille Lafon-Cazal and Joël Bockaert — Non-classical glutamate receptors, blocked by both NMDA and non-NMDA antagonists, stimulate nitric oxide production in neurons 29

Jeremy M. Henley, Robert Jenkins and Stephen P. Hunt — Localisation of glutamate receptor binding sites and mRNAs to the dorsal horn of the rat spinal cord 37

G. B. De Sarro, G. Bagetta, C. Spagnolo and G. Nisticò — Antagonists of *N*-methyl-D-aspartate receptors block seizures induced by putrescine in the deep prepiriform cortex 43

G. B. De Sarro and A. De Sarro — Anticonvulsant properties of non-competitive antagonists of the *N*-methyl-D-aspartate receptor in genetically epilepsy-prone rats: comparison with CPPene 51

R. J. Prince and M. A. Simmonds — Differential antagonism by epipregnanolone of alphaxalone and pregnanolone potentiation of [^{3}H]flunitrazepam binding suggests more than one class of binding site for steroids at $GABA_A$ receptors 59

R. Camsonne, Louisa Barre, Marie-Christine Petit-Taboué, J. M. Travère, R. Jones, Danièle Debruyne, M. A. Moulin, E. T. MacKenzie and J. C. Baron — Positron emission tomographic studies of [^{11}C]MDL 72222, a potential 5-HT_3 receptor radioligand: distribution, kinetics and binding in the brain of the baboon 65

D. I. Wallis, J. Wu and X. Wang — Descending inhibition in the neonate rat spinal cord is mediated by 5-hydroxytryptamine 73

H.-Y. Wang, L.-W. Zhou, E. Friedman and B. Weiss — Differential regulation of release of acetylcholine in the striatum in mice following continuous exposure to selective D_1 and D_2 dopaminergic agonists 85

B. Gao and M. G. Cutler — Effects of quinpirole on the behaviour shown by mice in the light–dark box and during social interactions 93

Rapid Communications

Steven J. Cooper, John Francis and David J. Barber — Selective dopamine D-1 receptor agonists, SK&F 38393 and CY 208-243 reduce sucrose sham-feeding in the rat 101

Thoralf Opitz and Klaus G. Reymann — (1S, 3R)-ACPD protects synaptic transmission from hypoxia in hippocampal slices 103

NUMBER 2

P. J. Forshaw, T. Lister and D. E. Ray — Inhibition of a neuronal voltage-dependent chloride channel by the type II pyrethroid, deltamethrin 105

J. Yanai, Y. Rogel-Fuchs, C. G. Pick, T. Slotkin, F. J. Seidler, E. A. Zahalka and M. E. Newman	Septohippocampal cholinergic changes after destruction of the A10-septal dopaminergic pathways	113
H. Hartmann, S. A. Cohen and W. E. Müller	Effects of subchronic administration of pyritinol on receptor deficits and phosphatidylinositol metabolism in the brain of the aged mouse	119
M. Yasui, K. Kawasaki, A. Matsushita and M. Satoh	Benzodiazepine inverse agonists augment long-term potentiation in CA1 and CA3 of guinea pig hippocampal slices	127
H.-Y. Huang	ω-Conotoxin GVIA inhibits release of noradrenaline from rat hippocampal slices in the absence of extracellular calcium	133
T. S. Rao, N. M. Gray, M. S. Dappen, J. A. Cler, S. J. Mick, M. R. Emmett, S. Iyengar, J. B. Monahan, A. A. Cordi and P. L. Wood	Indole-2-carboxylates, novel antagonists of the *N*-methyl-D-aspartate (NMDA)-associated glycine recognition sites: *in vivo* characterization	139
C. G. Boissard and V. K. Gribkoff	The effects of the adenosine reuptake inhibitor soluflazine on synaptic potentials and population hypoxic depolarizations in area CA1 of rat hippocampus *in vitro*	149
G. S. Dhaunsi, B. Singh, A. K. Singh, D. A. Kirschner and I. Singh	Thioridazine induces lipid peroxidation in myelin of rat brain	157
E. Ghansah, P. Kopsombut, M. A. Maleque and A. Brossi	Effects of mescaline and some of its analogs on cholinergic neuromuscular transmission	169
K. Shibata, M. Sakimura and T. Furukawa	Antagonism of central pressor response to angiotensin II by α-human atrial natriuretic polypeptide at the preoptic area and posterior hypothalamus in rats	175
A. Ally, Y. Hara and S. Murayama	Cardiovascular effects of central administration of cholinomimetics in anesthetized cats	185
D. D. Wheeler, A. M. Edwards and J. G. Ondo	The effect of cocaine on membrane potential, on membrane depolarization by veratridine or elevated $[K]_o$ and on sodium/potassium permeability ratios in synaptosomes from the limbic cortex of the rat	195

NUMBER 3

Lynn O. Wilkinson, Lynda M. Hawkins, Margaret S. Beer, Marcel F. Hibert and Derek N. Middlemiss	Stereoselective actions of the isomers of metitepine at 5-HT_{1D} receptors in the guinea pig brain	205
Michael R. Pranzatelli, Prayus T. Tailor and Parisa Razi	Brainstem serotonin receptors in the guinea pig: implications for myoclonus	209
Sandra E. File, H. Zangrossi Jr and N. Andrews	Social interaction and elevated plus-maze tests: changes in release and uptake of 5-HT and GABA	217
Isabel Jiménez and J. A. Fuentes	Subchronic treatment with morphine inhibits the hypertension induced by isolation stress in the rat	223
J. W. Boja and T. A. Kopajtic	Ion channel inhibitors may function as potential modulators of cocaine binding	229
N. Lukáčová, M. Chavko and G. Halát	Effect of stobadine on lipid peroxidation and phospholipids in rabbit spinal cord after ischaemia	235
M. Tateyama, S. Ohta, T. Nagao, M. Hirobe and H. Ono	Effect of 4-phenyl-1,2,3,4-tetrahydroisoquinoline on ambulation induced by injection of methamphetamine into the nucleus accumbens in rats	243
A. K. Cadogan, C. A. Marsden, I. Tulloch and D. A. Kendall	Evidence that chronic administration of paroxetine or fluoxetine enhances 5-HT_2 receptor function in the brain of the guinea pig	249

Claire Rodger and Barbara J. Pleuvry	Protective effect of flunarizine and nifedipine alone and in combination with anticonvulsant drugs against PTZ-induced seizures in mice	257
B. Gao and M. G. Cutler	Effects of acute and subchronic administration of ritanserin on the social behaviour of mice	265
Susan K. Johnson, H. Fisher and G. C. Wagner	Partial 6-hydroxydopamine-induced lesions and haloperidol-induced catalepsy	273
J. H. Casada and N. Dafny	Responses of neurons in bed nucleus of the stria terminalis to microiontophoretically applied morphine, norepinephrine and acetylcholine	279
R. Lomneth, J. Gimenez, T. F. J. Martin and B. R. DasGupta	Calcium-dependent release of norepinephrine from permeabilized PC12 cells is inhibited by ~48 and ~112 kDa fragments of botulinum neurotoxin type E	285
E. Messamore, N. Ogane and E. Giacobini	Cholinesterase inhibitor effects on extracellular acetylcholine in rat striatum	291
H. R. Weiss and A. K. Sinha	Imbalance of regional cerebral blood flow and oxygen consumption: effect of vascular alpha adrenoceptor blockade	297
C. Wang, M. K. Chakrabarti and J. G. Whitwam	Synergism between the antinociceptive effects of intrathecal midazolam and fentanyl on both A δ and C somatosympathetic reflexes	303
T. Kano, Y. Katayama, S. Miyazaki, K. Kinoshita, K. Kawamata and T. Tsubokawa	Effects of indeloxazine on hippocampal CA1 pyramidal cell damage following transient cerebral ischemia in the gerbil	307
Rapid Communication		
Joanne W. Goh and Melinda A. Musgrave	L-AP3 does not antagonize hippocampal synaptic depression induced by 1S,3R-ACPD	311
Corrigendum		313

NUMBER 4

N. Yoshimura, E. Mizuta, S. Kuno, M. Sasa and O. Yoshida	The dopamine D_1 receptor agonist SKF 38393 suppresses detrusor hyperreflexia in the monkey with parkinsonism induced by 1-methyl-4-phenyl-1,2,3,6-tetrahydropyridine (MPTP)	315
Pirkko Paakkari, Ilari Paakkari, Phillip Landes, Anna-Leena Sirén and Giora Feuerstein	Respiratory μ-opioid and benzodiazepine interactions in the unrestrained rat	323
Ashish Singh and Irwin Lucki	Antidepressant-like activity of compounds with varying efficacy at 5-HT_{1A} receptors	331
Kaoru Kobayashi and Osamu Inoue	An increase in the *in vivo* binding of [^{3}H]SCH 23390 induced by MK-801 in the mouse striatum	341
Doreen M. Grech, Joyce Willetts and Robert L. Balster	Pharmacological specificity of *N*-methyl-D-aspartate discrimination in rats	349
Christine Ennis and M. C. W. Minchin	Modulation of the $GABA_A$-like autoreceptor by barbiturates but not by steroids	355
Jenny L. Wiley, Rita L. Barrett, Darrell T. Britt, Robert L. Balster and Billy R. Martin	Discriminative stimulus effects of Δ^9-tetrahydrocannabinol and $\Delta^{9\text{-}11}$-tetrahydrocannabinol in rats and rhesus monkeys	359
T. I. Kanui, A. Tjølsen, A. Lund, Norma Mjellem-Joly and K. Hole	Antinociceptive effects of intrathecal administration of α-adrenoceptor antagonists and clonidine in the formalin test in the mouse	367
P. C. Molenaar, J. E. Biewenga, G. Th. H. Van Kempen and J. A. De Priester	Effect of ephedrine on muscle weakness in a model of myasthenia gravis in rats	373

N. Takeuchi, Y. Takikawa and N. Shibuya	Actions of benzalkonium chloride as a potent depressant at the neuromuscular junction	377
A. C. McCreary and C. A. Marsden	Cocaine-induced behaviour: dopamine D_1 receptor antagonism by SCH 23390 prevents expression of conditioned sensitisation following repeated administration of cocaine	387
A. Martínez and E. Arilla	The effect of diazepam and the benzodiazepine antagonist CGS 8216 on the somatostatinergic neuronal system	393
O. Carter Snead III and Chun Che Liu	$GABA_A$ receptor function in the γ-hydroxybutyrate model of generalized absence seizures	401

NUMBER 5

Margaret G. Cutler	Comparison of the effects of yohimbine and clonidine on the behaviour of female mice during social encounters in an "approach-avoidance" situation	411
Andre L. Curtis, Eileen Conti and Rita J. Valentino	Cocaine effects on brain noradrenergic neurons of anesthetized and unanesthetized rats	419
B. Gao and M. G. Cutler	Buspirone increases social investigation in pair-housed male mice; comparison with the effects of chlordiazepoxide	429
V. Van Der Meersch-Mougeot, M. Da Rocha Jr, C. Monier, B. Diquet, A. J. Puech and M. H. Thiébot	Benzodiazepines reverse the anti-immobility effect of antidepressants in the forced swimming test in mice	439
Robert Stickgold, Julie Williams, Subimal Datta, James Quattrochi and J. Allan Hobson	Suppression of eltoprazine-induced REM sleep rebound by scopolamine	447
S. M. P. Anderson, R. J. De Souza and A. J. Cross	The human neuroblastoma cell line, IMR-32 possesses a $GABA_A$ receptor lacking the benzodiazepine modulatory site	455
Roy Corbett and Robert W. Dunn	Effects of 5,7 dichlorokynurenic acid on conflict, social interaction and plus maze behaviors	461
Diana A. Jauch, Vimala H. Sethy, Barton G. Welck, Thomas N. Chase and Robert Schwarcz	Intravenous administration of L-kynurenine to rhesus monkeys: effect on quinolinate and kynurenate levels in serum and cerebrospinal fluid	467
M. Nomoto and T. Fukuda	A selective MAO_B inhibitor Ro19-6327 potentiates the effects of levodopa on parkinsonism induced by MPTP in the common marmoset	473
Y. Watanabe, H. Saito and K. Abe	Tricyclic antidepressants block NMDA receptor-mediated synaptic responses and induction of long-term potentiation in rat hippocampal slices	479
K. Yoshida, D. K. Gjerde, M. A. Carino, L. M. Halpern and A. Horita	The effects of SCH 23390 and raclopride on cocaine-induced analepsis and EEG arousal in rabbits	487
W. Kropf and K. Kuschinsky	Effects of stimulation of dopamine D_1 receptors on the cortical EEG in rats: different influences by a blockade of D_2 receptors and by an activation of putative dopamine autoreceptors	493
D. D. Wheeler, A. M. Edwards and J. G. Ondo	Dopamine uptake in five structures of the brain: comparison of rate, sodium dependence and sensitivity to cocaine	501
Rapid Communications		
Siobhan A. Daly and John L. Waddington	Behavioural effects of the putative D-3 dopamine receptor agonist 7-OH-DPAT in relation to other "D-2-like" agonists	509
Nobuo Kato and Hiroshi Yoshimura	Tetanization during $GABA_A$ receptor activation induces long-term depression in visual cortex slices	511
Announcement		I

NUMBER 6

P. L. Needham, M. J. Skill, A. Cowan, R. J. Redfern and D. J. Heal	Reserpinization severs the cooperative but not the oppositional interaction between D1 and D2 receptors	515
Pamela E. Potter and Shunichi Nitta	Alterations in modulation of acetylcholine release following lesion of hippocampal cholinergic neurons with the neurotoxin AF64A	519
Karen Bohmaker, Arlene S. Eison, Frank D. Yocca and Emanuel Meller	Comparative effects of chronic 8-OH-DPAT, gepirone and ipsapirone treatment on the sensitivity of somatodendritic 5-HT_{1A} autoreceptors	527
Karey Elrod, Kiril Raikoff, Ernst Wulfert and Israel Hanin	UCB 29120, a novel, potential psychotropic agent, alters norepinephrine and dopamine content of rat brain	535
Kenneth Grasing and Hazel Szeto	EEG changes with different levels of morphine self-administration	543
A. Jon Stoessl and Elizabeth Polanski	Neuroleptic-induced chewing movements in the rat are suppressed by peripherally but not centrally administered CCK and abolished by bilateral subdiaphragmatic vagotomy	555
Scott Wieland, Christine T. Fischette and Irwin Lucki	Effect of chronic treatments with tandospirone and imipramine on serotonin-mediated behavioral responses and monoamine receptors	561
Kazuyoshi Tsukamoto and Alan F. Sved	Contrasting effects of the GABA transaminase inhibitors γ-vinylGABA and aminooxyacetic acid on arterial pressure following injection into nucleus tractus solitarius	575
G. M. Toney and J. P. Porter	Effects of blockade of AT1 and AT2 receptors in brain on the central angiotensin II pressor response in conscious spontaneously hypertensive rats	581
N. Mjellem, A. Lund and K. Hole	Reduction of NMDA-induced behaviour after acute and chronic administration of desipramine in mice	591
K. S. Hsu, W. M. Fu and S. Y. Lin-Shiau	Studies on the neuromuscular blocking action of MPTP in the mouse phrenic nerve–diaphragm	597
M. Poncelet, V. Santucci, R. Paul, C. Gueudet, S. Lavastre, J. Guitard, R. Steinberg, J. P. Terranova, J. C. Brelière, P. Soubrié and G. Le Fur	Neuropharmacological profile of a novel and selective ligand of the sigma site: SR 31742A	605

NUMBER 7

A. T. Kennedy, I. Kitchen and R. G. Hill	Assessment of 8-OH-DPAT induced spontaneous tailflicks as an *in vivo* model of 5-HT_{1A} function in young rats	617
H. Zhuo, S. J. Fung and C. D. Barnes	Opioid action on spinal cord reflexes due to dorsolateral pontine tegmentum stimulation	621
S. Bourgoin, M. Pohl, A. Mauborgne, J. J. Benoliel, E. Collin, M. Hamon and F. Cesselin	Monoaminergic control of the release of calcitonin gene-related peptide- and substance P-like materials from rat spinal cord slices	633
Lynda Uphouse, Marjay Caldarola-Pastuszka and Nekayla Moore	Inhibitory effects of the 5-HT_{1A} agonists, 5-hydroxy- and 5-methoxy-(3-(di-*n*-propylamino)chroman), on female lordosis behavior	641
A. H. Young, R. C. Dow, G. M. Goodwin and G. Fink	The effects of adrenalectomy and ovariectomy on the behavioural and hypothermic responses of rats to 8-hydroxy-2(di-*n*-propylamino)tetralin (8-OH-DPAT)	653
Jiankang Liu and Akitane Mori	Antioxidant and pro-oxidant activities of *p*-hydroxybenzyl alcohol and vanillin: effects on free radicals, brain peroxidation and degradation of benzoate, deoxyribose, amino acids and DNA	659

E. Sybirska, J. P. Seibyl, J. D. Bremner, R. M. Baldwin, M. S. Al-Tikriti, C. Bradberry, R. T. Malison, Y. Zea-Ponce, S. Zoghbi, M. During, A. W. Goddard, S. W. Woods, P. B. Hoffer, D. S. Charney and R. B. Innis — [^{123}I]Iomazenil SPECT imaging demonstrates significant benzodiazepine receptor reserve in human and nonhuman primate brain 671

M. Matsumoto, M. Inagaki, Y. Kiuchi, J. Izumi, Y. Yamazaki and K. Oguchi — Role of calcium ions in dopamine release induced by sodium cyanide perfusion in rat striatum 681

S. Sakurada, N. Nakata, T. Sakurada, K. Chaki, S. Kawamura, K. Kisara and K. Suzuki — Tolerance and cross-tolerance to the antinociceptive effects of [D-Arg^2]-dermorphin tetrapeptide analogue and morphine 689

M. Yamamoto, M. Ooyama, Y. Ozawa, M. Okada, S. Tada, T. Yamaguchi and H. Endo — Effects of indeloxazine hydrochloride, a cerebral activator, on passive avoidance learning impaired by disruption of cholinergic transmission in rats 695

R. Yu. Yukhananov, Q. Z. Zhai, S. Persson, C. Post and F. Nyberg — Chronic administration of morphine decreases level of dynorphin A in the rat nucleus accumbens 703

H. S. Sharma, F. Nyberg, M. Thörnwall and Y. Olsson — Met-enkephalin-Arg^6-Phe^7 in spinal cord and brain following traumatic injury to the spinal cord: influence of *p*-chlorophenylalanine. An experimental study in the rat using radioimmunoassay technique 711

Rapid Communications

Nicholas A. Moore, Gaynor Rees, Graham Sanger and Sandy Awere — Effect of L-type calcium channel modulators on stimulant-induced hyperactivity 719

John J. Byrnes, Gary A. Pritchard, Jonathan M. Koff and Lawrence G. Miller — Prenatal cocaine exposure: decreased sensitization to cocaine and decreased striatal dopamine transporter binding in offspring 721

D. E. Jane, P. L. St. J. Jones, P. C.-K. Pook, T. E. Salt, D. C. Sunter and J. C. Watkins — Stereospecific antagonism by (+)-α-methyl-4-carboxyphenylglycine (MCPG) of (1S,3R)-ACPD-induced effects in neonatal rat motoneurones and rat thalamic neurones 725

NUMBER 8

Nigel R. Newberry, Clare J. Watkins, Timothy S. Sprosen, Thomas P. Blackburn, David G. Grahame-Smith and Ronald A. Leslie — BRL 46470 potently antagonizes neural responses activated by 5-HT$_3$ receptors 729

S. C. Cheetham, J. A. Viggers, N. A. Slater, D. J. Heal and W. R. Buckett — [^{3}H]Paroxetine binding in rat frontal cortex strongly correlates with [^{3}H]5-HT uptake: effect of administration of various antidepressant treatments 737

Erik Messamore, Ulrika Warpman, Nobuo Ogane and Ezio Giacobini — Cholinesterase inhibitor effects on extracellular acetylcholine in rat cortex 745

Paul J. Brent — Behavioural effect of pretreatment with opioid antagonists and sigma binding site ligands on the abnormal motor response produced by the kappa opioid agonist U50,488H in guinea pigs 751

M. Tateyama, S. Ohta, T. Nagao, M. Hirobe and H. Ono — Inhibitory effect of 4-phenyltetrahydroisoquinoline on locomotion and dopamine release induced by micro-injection of methamphetamine into the nucleus accumbens of the rat 761

N. Zhou, L. G. Hammerland and T. N. Parks — γ-D-Glutamylaminomethyl sulfonic acid (GAMS) distinguishes kainic acid- from AMPA-induced responses in *Xenopus* oocytes expressing chick brain glutamate receptors 767

Nobuyo Kamijo, Taku Nagao and Hideki Ono — Depression of the monosynaptic reflex by apomorphine or bromocriptine is not mediated by D_1/D_2 receptors 777

Z. Kvaltinová, L. Lukovič and S. Štolc	Effect of incomplete ischemia and reperfusion of the rat brain on the density and affinity of α-adrenergic binding sites in the cerebral cortex. Prevention of changes by stobadine and vitamin E	785
A. Mørk and A. Geisler	Effects of minocycline on accumulation of cyclic AMP in cerebral cortex of rat. A comparison with lithium	793
P. L. R. Andrews and P. Bhandari	Resinferatoxin, an ultrapotent capsaicin analogue, has anti-emetic properties in the ferret	799
K. D. Nantwi and E. P. Schoener	Cocaine and dopaminergic actions in rat neostriatum	807
Anita E. Ciarleglio, Margery C. Beinfeld and T. C. Westfall	Pharmacological characterization of the release of neuropeptide Y-like immunoreactivity from the rat hypothalamus	819
E. Toth, E. S. Vizi and A. Lajtha	Effect of nicotine on levels of extracellular amino acids in regions of the rat brain *in vivo*	827
Announcement		I

NUMBER 9

Yoichi Nakamura, Kiyoshi Kataoka, Michiko Ishida and Haruhiko Shinozaki	(2*S*,3*S*,4*R*)-2-(Carboxycyclopropyl)glycine, a potent and competitive inhibitor of both glial and neuronal uptake of glutamate	833
K. P. Datla and G. Curzon	Behavioural and neurochemical evidence for the decrease of brain extracellular 5-HT by the antidepressant drug tianeptine	839
Richard Loiacono, Jenny Stephenson, Joanne Stevenson and Fred Mitchelson	Multiple binding sites for nicotine receptor antagonists in inhibiting [^{3}H](−)-nicotine binding in rat cortex	847
Ghislaine Perrault, Eliane Morel, David J. Sanger and Branimir Zivkovic	Repeated treatment with alpidem, a new anxiolytic, does not induce tolerance or physical dependence	855
M. Bartoletti, M. Galardi, C. Gubellini, A. Bacchi and M. Babbini	Effects of buprenorphine on motility in chronically morphine treated rats	865
Erik H. F. Wong, Douglas W. Bonhaus, Jeffrey A. Lee, Irene Wu, Dana N. Loury and Richard M. Eglen	Different densities of 5-HT$_3$ receptors are labeled by [^{3}H]quipazine, [^{3}H]GR 65630 and [^{3}H]granisetron	869
K. S. Hsu and S. Y. Lin-Shiau	Potentiation of MPTP by 4-phenylpyridine on the neuromuscular blockade in mouse phrenic nerve–diaphragm	877
Shana L. Bowling, James K. Rowlett and Michael T. Bardo	The effect of environmental enrichment on amphetamine-stimulated locomotor activity, dopamine synthesis and dopamine release	885
T. Żarnowski, Z. Kleinrok, W. A. Turski and S. J. Czuczwar	2,3-Dihydroxy-6-nitro-7-sulfamoylbenzo(F)quinoxaline enhances the protective activity of common antiepileptic drugs against maximal electroshock-induced seizures in mice	895
Paul R. Buckland, Michael C. O'Donovan and Peter McGuffin	Clozapine and sulpiride up-regulate dopamine D$_3$ receptor mRNA levels	901
Alice A. Larson and Xiaofeng Sun	Regulation of sigma activity by the amino-terminus of substance P in the mouse spinal cord: involvement of phencyclidine (PCP) sites not linked to *N*-methyl-D-aspartate (NMDA) activity	909
W. G. Sannita, V. Balestra, G. DiBon, K. M. Hassan and G. Rosadini	Ammonia-independent modifications of the background EEG signal and paradoxical enhancement of epileptic abnormalities in EEG after acute administration of valproate to epileptic patients	919

Rapid Communications

Gernot Riedel and Klaus Reymann — An antagonist of the metabotropic glutamate receptor prevents LTP in the dentate gyrus of freely moving rats 929

Olga A. Sergueeva, Nikolai B. Fedorov and Klaus G. Reymann — An antagonist of glutamate metabotropic receptors, (RS)-α-methyl-4-carboxyphenylglycine, prevents the LTP-related increase in postsynaptic AMPA sensitivity in hippocampal slices 933

NUMBER 10

S. N. Mitchell — Role of the locus coeruleus in the noradrenergic response to a systemic administration of nicotine 937

Ichiro Niki and Stephen J. H. Ashcroft — Characterization and solubilization of the sulphonylurea receptor in rat brain 951

Hideo Fukui, Masaki Yamamoto, Takao Ando, Satoshi Sasaki and Shuzo Sato — Increase in serotonin levels in the dog ileum and blood by cisplatin as measured by microdialysis 959

B. Gao and M. G. Cutler — Effects of chlordiazepoxide, buspirone and the 5-HT_3 receptor antagonist, BRL 46470, on the behaviour of oestrous and dioestrous female mice when encountering male partners 969

R. Stefański, W. Palejko, A. Bidziński, W. Kostowski and A. Płaźnik — Serotonergic innervation of the hippocampus and nucleus accumbens septi and the anxiolytic-like action of midazolam and 5-HT_{1A} receptor agonists 977

R. Stefański, W. Palejko, A. Bidziński, W. Kostowski and A. Płaźnik — Serotonergic innervation of the hippocampus and nucleus accumbens septi and the anxiolytic-like action of the 5-HT_3 receptor antagonists 987

Ray W. Fuller and Harold D. Snoddy — Evaluation of nefopam as a monoamine uptake inhibitor *in vivo* in mice 995

Paul J. Mitchell and Allan Fletcher — Venlafaxine exhibits pre-clinical antidepressant activity in the resident–intruder social interaction paradigm 1001

D. N. Stephens and L. Turski — Kindling to the benzodiazepine receptor inverse agonist, FG 7142: evidence for involvement of NMDA, but not non-NMDA, glutamatergic receptors 1011

Makoto Ukai, Tohru Toyoshi and Tsutomu Kameyama — DAMGO ([D-Ala^2,*N*MePhe^4,Gly-ol]enkephalin), but not DPLPE ([D-Pen^2,L-Pen^5]enkephalin), specifically inhibits methamphetamine-induced behavioral responses in the mouse 1019

Lillian J. Robichaud and Peter A. Boxer — Polyamine modulation of excitatory amino acid responses in the rat cortical wedge 1025

Kjell Svensson, Elias Eriksson and Arvid Carlsson — Partial dopamine receptor agonists reverse behavioral, biochemical and neuroendocrine effects of neuroleptics in the rat: potential treatment of extrapyramidal side effects 1037

Valerie L. Woodburn, Neil J. Hayward, Judith A. Poat, Geoffrey N. Woodruff and John Hughes — The effect of dizocilpine and enadoline on immediate early gene expression in the gerbil global ischaemia model 1047

Thomas V. Dunwiddie and Karen K. Miller — Effects of adenosine and cadmium on presynaptic fiber spikes in the CA1 region of rat hippocampus *in vitro* 1061

Rapid Communications

Yossef Itzhak — Nitric oxide (NO) synthase inhibitors abolish cocaine-induced toxicity in mice 1069

C. H. Davies, M. F. Pozza and G. L. Collingridge — CGP 55845A: a potent antagonist of $GABA_B$ receptors in the CA1 region of rat hippocampus 1071
